56 **BOOKS**

I.G. ENTING. (2002). *Inverse Problems in Atmospheric Constituent Transport*. (Cambridge University Press). (Paperback edition: 2005).

I.G. ENTING (2007). *Twisted: The Distorted Mathematics of Greenhouse Denial*. Ian Enting/Australian Mathematical Sciences Institute.

**BOOK CHAPTERS — I.G. ENTING**

1. I.G. ENTING and G.I. PEARMAN, (1986). The use of observations in calibrating and validating carbon cycle models, Chapter 21, pp.425–458 of *The Changing Carbon Cycle: A Global Analysis*. Eds. J. Trabalka and D. Reichle, (Springer–Verlag).
2. I.G. ENTING and G.I. PEARMAN, (1993). Average global distributions of CO<sub>2</sub>. pp.31–64 of *The Global Carbon Cycle*, Proceedings of the Nato Advanced Study Institute at Il Ciocco, September 1991. Ed. M. Heimann, (Springer–Verlag).
3. I.G. ENTING and M.R. MANNING, (1993). Summary of Workshop on Inverse Problems. pp.575–578 of *The Global Carbon Cycle*, Proceedings of the Nato Advanced Study Institute at Il Ciocco, September 1991. Ed. M. Heimann, (Springer–Verlag).
4. A.B. PITTOCK and I.G. ENTING, (1993). The effect of a delay in limiting greenhouse gas emissions. In: Proceedings of the Second South Pacific Regional Environment Program Meeting (Noumea, April 1992). Ed. J. Hay and C. Kaluwin. (58–60).
5. I.G. ENTING, (1993). Carbon Cycle Modelling. *Concise Encyclopedia of Environmental Systems*. Ed. P.C. Young (Pergamon). 81–86.
6. I.G. ENTING, (1995). CO<sub>2</sub>-climate Feedbacks: aspects of detection. pp 311–329 of *Biotic Feedbacks in the Global Climate System: Will the Warming Speed the Warming?* (Proceedings of IPCC Workshop, Woods Hole, October 1992). Ed. G.M. Woodwell and F.T. Mackenzie. (Oxford University Press).
7. P.P. TANS, I.Y. FUNG and I.G. ENTING, (1995). Storage versus flux budgets: the terrestrial uptake of CO<sub>2</sub> during the 1980s. pp.351–366 of *Biotic Feedbacks in the Global Climate System: Will the Warming Speed the Warming?* Ed. G.M. Woodwell and F.T. Mackenzie (Oxford University Press).
8. D. SCHIMEL, I. ENTING, M. HEIMANN, T. WIGLEY, D. RAYNAUD, D. ALVES and U. SIEGENTHALER, (1995). The Carbon Cycle. Chapter 1 of *Climate Change 1994*. Report to the IPCC from the Scientific Assessment Working Group I. Ed. J.T. Houghton et al. (Cambridge University Press).

9. D. SCHIMMEL, D. ALVES, I. ENTING, M. HEIMANN, F. JOOS, D. RAYNAUD and T. WIGLEY, (1996). CO<sub>2</sub> and the carbon cycle. Section 2.1 of *Climate Change 1995: The Science of Climate Change*. Ed. J.T. Houghton, L.G. Meira Filho, B.A. Callander, N. Harris, A. Kattenburg and K. Maskell. (Contribution of Working Group I to the Second Assessment Report of the Intergovernmental Panel on Climate Change). (Cambridge University Press).
10. L. DOBES, I. ENTING and C. MITCHELL, (1998). Accounting for carbon sinks: The problem of time. Chapter 13 (pp160-177) of *Trading Greenhouse Emissions: Some Australian Perspectives*. Ed. L. Dobes. (Department of Transport: Australia).
11. I.G. ENTING, (2000). Constraints on the atmospheric carbon budget from spatial distributions of CO<sub>2</sub>. Chapter 8 of *The Carbon Cycle*. Ed. T.M.L. Wigley and D. Schimel. (Cambridge University Press).
12. I.G. ENTING, (2000). Green's function methods of tracer inversion. pp19-31 of *Inverse Methods in Global Biogeochemical Cycles*. AGU Monograph no. 114. Ed. P. Kasibhatla and others.(American Geophysical Union).
13. C. TRUDINGER, I. ENTING, D. ETHERIDGE, R. FRANCEY and P. RAYNER, (2005). The carbon cycle over the last 1000 years inferred from the inversion of CO<sub>2</sub> data. pp329-349 of *A History of Atmospheric CO<sub>2</sub> and its Effect on Plants, Animals and Ecosystems*. Ed. J. Ehleringer and M. D. Dearing. (Springer, New York).
14. I.G. ENTING (2006). Surface magnetisation of the 3-state Potts model with free and fixed boundaries on the square lattice. pp83-94 of *Counting Complexity: An International Workshop on Statistical Mechanics and Combinatorics. (Dunk Island 10-15 July 2005)*. Ed. J. de Gier and O. Warnaar. Journal of Physics Conference Series Vol 42. (Institute of Physics: Bristol and Philadelphia).
15. I. G. ENTING AND I. JENSEN (2009). Exact enumerations. Chapter 7, pp143-179 of *Polygons, Polyominoes and Polycubes*, Ed. A.J. Guttmann. Springer Lecture Notes in Mathematics, No 775, Springer (Dordrecht).
16. I. G. ENTING (2010). Inversion of atmospheric CO<sub>2</sub> concentrations. Chapter 1, pp287-316 of *Air Pollution and Turbulence: Modeling and Applications*. Ed. D. Moreira and M. Vilhena. CRC Press (Taylor and Francis). (Boca Raton, Florida).
17. I. G. ENTING (2010). Inverse problems and complexity in earth systems science. From 22nd Canberra International Physics Summer School: *Complex Physical, Biophysical and Econophysical Systems*. Ed. R. Dewar and F. Detering. World Scientific.

## CONTRACT REPORTS

### I.G. ENTING

1. I.G. ENTING, (1995). Final report for SECV contract on three-dimensional atmospheric modelling. (37pp)
2. I.G. ENTING, (1997). *Policy Implications of Greenhouse Gas Targets*. (1997) Final report of consultancy for Department of Environment Sport and Territories (82pp).
3. I.G. ENTING, (1997). *Policy Implications of Greenhouse Gas Targets*. (1997) Summary report of consultancy for Department of Environment Sport and Territories (18pp).
4. I.G. ENTING, (1998). *Report on the Quantitative Relationship Between Global Warming Potentials and Carbon Sequestered in Vegetation*. Report for Greenhouse Challenge Office. 17pp.
5. I. ENTING, D. KAROLY, J. FALK, N. CLISBY, R. BODMAN and D. SETTLE. *The Science of Stabilising Greenhouse Gas Concentrations*. A commissioned report for the Garnaut Climate Change Review. 88pp. On-line at Garnaut Review website. <http://www.garnautreview.org.au>. April 2008. Initial version *The Science of Emission Stabilisation*. November 2007.
